Dear Customer,

There has been significant growth in Global markets over the last few years and we are allocating new resources regionally in order to respond effectively. Remaining competitive and also finding new opportunities to work together with successful partners is crucial for the growth of the SENTINEL™ business.

I am pleased to announce that we have found a great partner, HO Jin, from South Korea who together with QSA has established a new office in Seoul called SENTINEL Asia Ltd. This is a Joint Venture between QSA Global, Inc. and Ho Jin Industrial Co., Ltd. with QSA holding a majority share. This office is now open and will handle all SENTINEL/ KYUNGDO/ HOJIN related business in Asia and be the focal point for Customer Service in order to provide enhanced services to all our customers. The Joint Venture will offer all SENTINEL products and all of Ho Jin/KYUNGDO products including gamma Radiography, X-ray, MT/PT and others. One of the benefits of this office will be your ability to speak with someone during business hours that are similar to your own and be able to discuss issues in real time.

Below you will find the contact information for SENTINEL Asia.
